

Conclusions: Working group Networking

Participants

Dimitriadou, Eleftheria; Konstantinidou, Myrto; Kostaras, Nikos; Kritikos, Nikos; Lekkas, Vasilis; Leventis, Iakovos; Madden, Cordelia; Papaioannou Kostas; Plassara, Katherina; Turner, Penelope

Topics

Legal frame

Based on the preparatory work of Kostas Papaioannou and his report in the morning session, it was accepted, that according to the civil law the network should have the legal identity of a corporation. The corporation has the right to elect its own administrative organs, to pursue projects and to attain financial resources and property.

Terms and conditions were already prepared by preliminary statutes. Some small modifications of the proposed statutes were discussed. A final constitution to be approved by the court will be finished and be sent to all participants by eMail.

Board of management / board of directors

A temporary administration committee of 7 members signed the protocol of formation (Kostaras, Kritikos, Lekkas, Makaritis, Papaioannou, Soumelidou,.....) With this protocol the statutes can be given to the court for the legal acceptance. This will take 4-5 months time.

Name / Acronym of the Organisation or the network

Name of the organisation

AMALTHIA

The Greek society for the protection and conservation of indigenous breeds of domestic animals

Address: prospective Athens (or eventually Thessaloniki)

Next steps

1. Proceeding the statutes to the court (Papaioannou; Soumelidou)
2. Search for all organisations (NGO s) involved in conservation work in Greece. They shall be invited to join the network (all members of the temporary administration committee)¹
